See notice of strayed or stolen. L. Branson advertises new books. See his advertisement.

See notice in another column from R. T. Fulghum, Editor of the State Agricultural Journal.

On Thursday last near Selma, Johnston county, a Mrs. Smith and a son, 12 years of age, were thrown from a cart and killed. Messrs. Rogers & Harriss have removed from their former stand, on

Wilmington street, to Nick Denton's corner, on Wilmington street and Exchange Place, and have refitted the same as a grocery and liquor store. The funeral of the late W. J. Grif fice will take place at the Edenton

Street Methodist Church, at 11 A. M. to-day. Rev. B. B. Culbreth will occupy pulpit of the Edenton Street

Methodist Church this evening. We never correct the slight mistakes that frequently occur in our columns, and therefore will not notice the very slight error in our compositor in setting up"Jonie" for the name of the new Kittrell's Lodge of Masons, when we plainly wrote it "Ionic."

That the outside world may know the nature of the climate of Raleigh, we will state the fact that violets and daisies are in full bloom in Capitol square in open air, and strawberries are ripe on the vines in the truck garden of Mr. Theophilus Snow, near this city. Captain L. R. Exline, late the able

and efficient Superintendent of the Cape Fear & Deep River Navigation Company, has moved to this city and formed a business connection with the popular Fayetteville Street Grocer, Wayne Allcott, Esq. We congratulate both parties, as the accession of Captain Exline to this popular house will doubtless prove to his own benefit as well as increase the popularity of the house.

We dropped in yesterday at Towles old stand and saw the fresh goods being opened by C. T. Morel, Agent, Among other things we noticed a lot of Dobbin's Electric Soap. We use it and can safely say it is all that it is represented to be. It would be useless with limited space to attempt to enumerate the good things there exposed. Truly we can say with his advertisement, "Give us the luxuries of life and we will dispense with the necessaries.'

In the death of Capt. A. J. Lawrence the Masonic fraternity loses one of its ablest and, in his younger days, most useful member, having been connected with the Order since 1819. He was initiated in Columbia Lodge, Washington City, in January of that year. He was Grand Secretary of the Grand Lodge of this State for several years, between 1820 and 1830, which office constituted him a prominent member of that body. He was a Royal Arch Mason, having received the Chapter degrees in Raleigh Chapter No. 10.

THE TUPPER CHURCH AFFAIR.-The following communication was sent to us yesterday:

"The Trustees of the Second Baptist Church, known as Tupper's Church, have no desire or intention to interfere with the Sunday school, the Intermediate class, or worship of any kind which has previously taken place at this Church, as the communication in your paper of yesterday, signed by Mr. Tupper, might imply. In the recent legal complications

which were forced upon the Trustees by a party who would deprive us of our house of worship, the moral responsibility of which rests upon the head of the aggressor in the matter, there is no reason that the religious worship should be disturbed, and we intend that it shall be continued. In the absence of a regular pastor we wish and anxiously desire ministerial services either by our white or colored brethren. The Church will be open to-day for the usual Sunday school exercises and the "Intermediate" class can use it as often as they wish. THE TRUSTEES.

Examination of Witnesses.

Yesterday the trial of Allan McPherson and Henry Williams for the crime of burglary, (which is now a capital offence) commenced before his Honor, Judge Watts, in the Superior Court. Having been previously arraigned they were brought in Court at 10 o'clock by Deputy Sheriff Doyle, when the indictment was read by the Solicitor for the State, Gen. W. R. Cox. The prisoners plead not guilty, and entrusted themselves to "God till Monday. and entrusted themselves to "God and their country" for their lives. Messrs. J. C. L. Harris and Thos. R. Purnell appeared for the prisoners; Gen. Cox and F. H. Busbee for the

Mr. Carson F. Murray was the first witness sworn. He testified that on the morning of January 2nd, about 1 o'clock, he was aroused by his little daughter, who was sleeping in a trundle bed in his room, and told him there was somebody in the house. Looking around he discoverhouse. Looking around he discovered that his clothing, which he had laid upon the foot of the bed, was gone, a window near his bed hoisted, and the doors of the house all open. Getting his son's clothing, he went out in search of the robbers, and discovering a drinking saloon open, near the Central Depot; he approached it, and saw two men whom he recognized as the prisoners at the Bar, taking a drink. As they came out he dodged under the shade of a tree, and after they left and went in the saloon and asked the proprietor, Ben Manly, who they were, &c. The two men went down the North Carolina Railroad and he followed. He soon discovered that McPherson had a bundle of clothing under his arm, and walking past the party halted, and demanded that they give up his watch and clothing. They denied having his clothing, and ordered him not to follow them, at the same time moving off. He drew his pistol and fired three shots. McPherson, in his flight, dropped the clothing which he [Murray] recovered, stating that it was the suit he then had on; he recognized the gloves and breastpin captured from McPherson by Chief of Police King, as his property, and stolen from him on the night his house was entered. Friday Jones, next sworn. He was policeman, and on duty in the Western Ward, on the night of the robbery; heard three pistol shots in the direction of the Lenoir street bridge over the North Carolina Railroad; himself and policemen Dur-ham and Lane hurried to the spot. They found Mr. Murray on the railroad with a pistol in hand and arrested him. Hearing his report of the robbery, he, with his companions, repaired to the Police Headquarters and reported the fact. The Captain at once made a disposition of his forces for the arrest of the parties. Himself and Lane, about an hour after this occurrence, met the prisoner, Williams, on the railroad. When asked who he was, the prisoner answered my name is John-Quick-get-a-long. 'Arrest him, Lane," cried the witness, and "hold him till he changes dat" name." The prisoner was taken to Manly's saloon, where he was recognized by Manly as one of the two men that Mr. Murray followed from his saloon down the railroad. He was searched and 40cts. taken from his person after he had denied that he had more than 20 cts. about him. Henry Lane, policeman, was next sworn and corroborated the state-

ment of Jones. Mayor Whitaker testified that Mr. Murray examined the money turned over to him by policemen Jones and Lane, and stated at the time: "That is my money. I had it in my vest pocket, as I recollect the way which that ten cent fractional currency was fold-

Ben Manly testified that he was the proprietor of a drinking saloon, near the Central depot; recognized the prisoners at the bar as the men that were in his saloon just before Mr. Murray came in. They were in his house about 1 o'clock, and remained about a half an hour; Williams paid

the capture of the prisoner, Alle.1 McPherson, at one of the rented houses of Mr. J. J. The City Finances. EDITORS OF THE NEWS: The tax payers of the city, and all who are really interested in its prosperity, are truly gratified at your determination to have fully exposed the finances of the city. The proposition which we hear is likely to be made, to wit: to issue a large amount of bonds to cover the present indebtedness, is simply destructive of the prosperity of the city, and must tend to diminish the price of its property. Many an honest man has been broken and ruined by the indulgence of creditors. Let us see our debt and meet it before the case becomes hopeless. Let your article stand till there be reform.

TAX-PAYER. OXFORD ITEMS.—Says our correspondent: Capt. William Biggs and family have arrived. The Captain is actively engaged in having his press and types put in readiness that he may commence the publication of his new paper as early as practicable. In a few days, however, his prospectus, which will christen it, will be sent forth to the public.

NO. 109. [For the Daily News. The City Bonds and the Sinking Fund of the City of Raleigh.

MESSRS. EDITORS:—I agree with you that every citizen of Raleigh has a right to know, and ought to demand to know, how the taxes of the city are disbursed. Hence, I cheerfully make the following explanation in relation

to the payment of interest. In 1869 the city of Raleigh issued coupon bonds to the amount of \$50,-000 for the purpose of "paying the in-debtedness of the city, and meeting the expense of improvements to be made for the same." This was in pur-suance of a vote of the people taken under authority of an act of Assem-

bly, ratified March 3d, 1869.
To pay the interest on these bonds and provide for the principal when due, a special tax was authorized. Likewise the Commissioners were directed to elect a "Commissioner of

the Sinking Fund of the City of Raleigh." The Board of Commissioners did me the honor in 1872 to elect me to

this office. Since my appointment there has not been a day's delay in the payment of the interest on the aforesaid

\$50,000 debt. Besides this debt, (sometimes called the "Market House Debt"), the city owes about \$60,000 "floating debt," most of which I think has been han-

ded down from administration to administration ever since 1868. Part of this "floating debt" is in city warrants, a large part in one, two and three year bonds, issued to take up city warrants. The coupons and principal of these latter bonds are receivable for taxes. They were issued under the clause of the Consti-

tution of the State, which authorizes the Commissioners to issue bonds for the "necessary expenses" of the city. But let all such bond-holders take notice that no special tax is levied or authorized to pay the interest on these one, two and three year bonds. No Commissioner of a Sinking Fund is appointed or authorised to take care of them. As "Commissioner of the Sinking Fund of the city of

Raleigh," under the act of 1869 above mentioned, I have no special duty in regard to them. It is true that last July, having some money to invest, collected as special taxes under the act of '69, having been ordered to do so by the Board of Commissioners, I invested said money in the coupons of these smaller bonds, the Board agreeing to give me in exchange for them a new 8 per cent. bond, payable semi-annually. But I have no funds to invest now. I have even been compelled to borrow money to pay the January interest on the \$50,000 debt of 1869, placed by law under my charge. This borrowed money is to be replaced by collections made by Mr. F. M. Sorrell, City Collector, under the special tax levied for the purpose, which must be paid

I hope I have made this point clear. In my opinion, the only way for the city of Raleigh to get out of its financial troubles is to issue, under authority of the General Assembly, long term bonds, to levy a special tax to pay the interest and provide for the extinguishment of the principal, to take up all the "floating debt," including city warrants, one, two and three year bonds and coupons past due, and then to confine its expenses to its income. Let it then be made an indictable offense for the Commissioners to incur debt in excess of an-

in cash, not in city warrants.

nual taxes. Until this be done there will al ways be confusion in the city finances and heart-burnings among its credit-

ors. Yours truly, KEMP P. BATTLE. Commissioner of Sinking Fund.

DEATH OF CAPT. A. J. LAWRENCE.

-This old and highly respectable citizen of Raleigh, passed away on Friday evening at the ripe age of 81 years. In his death our city loses one of her very oldest citizens, and a man who every one held in esteem. With his demise is severed one of the longest links in the chain binding the present with our past municipal history. He lived an irreproachable life, and in dying leaves a memory fragrant with many virtues. Captain L. was a volunteer in the war of 1812.

Cestelar is living in retirement in Paris.

There is to be a grand novel review at Key West shortly.

In St. Louis last year 1,599 building were erected, the value of which is \$6,765,575.

The leading merchants of a number of the principal cities of the country are petitioning against a total repeal of the bankrupt law.

Another heavy railroad grab is imminent. Congress is to be asked for a \$50,000,000 subsidy to the Texas Pacific Railroad.

The National Convention of the Association of Veterans of the Mexican War, meet in Washington on next Thursday. The statue of Gen. Wingfield Scott will be unveiled on the occasion if the work upon the base can be finished in time.

The Conservative members of the Virginia Legislature were caucusing Thursday and Friday evenings upon the selection of a Senatorial candidate. The caucus has closed doors, but the result thus far, as ascertained, indicates nothing definite. The Commissioner of Internal Rev-

enue is much encouraged by the recent receipts of his bureau, but the Congressional Appropriation Committee is of the opinion that some measure of Treasury relief will still be necessary. As to what this shall be there is as yet no indication.

Congress is looking after mormonism. A most stringent bill was introduced into the Senate Friday regarding polyganism in Utah. It withholds citizenship from alien polyganism and gives women the custody of minor children and due share of polyganism property.

The customs detectives having exceeded their powers in the case of and knave, which would have been the case had the Senate allowed the JORDAN, MARSH & Co., of Boston, Judge Lowell has delivered the firm out of the hands of the harpies, among whom they had fallen, and has taken possession of the books and ordered them brought under the Court's protection.

One Mr. BUTCHER, of New York, claims to be the owner of the Edgar Stewart, and asserts that she shall rot at her wharf rather than violate the neutrality laws of the United States. The question as to what he will do with her is soon to be settled, it is said, by her engaging in legitimate commerce.

It is thought, in knowing circles that the Supreme Court of Texas, in the case of the late State election, will create a most important political present officials in power for some time longer, and it is claimed that the Governor may call theold Senate Republican) together to provide for a new election.

What is the amount of the debt of the city of Raleigh? How much of it is funded? How much of it is floating? The citizens of Raleigh would like to have these questions answered.

The Legislature reassembles in this city to-morrow, after an adjournment of three weeks for the holidays. This body, after the rest which we hope the members have enjoyed, and the commingling with their constituents, will now doubtless go earnestly to work to complete the labors of the session. The principal question now to be considered is the settlement of the public debt, and as this matter was discussed prior to adjournment, it will doubtless soon be disposed of.

the recommittal of the Civil Rights

"The Civil Rights bill, upon the motion of General Butler, has been recommitted. We trust it will sleep the sleep of death, and may never b resurrected to disturb the friendly relations now existing between the races, the kindly feelings that are happily once again being engendered between the different sections of the Union. Should the bill be defeated, we believe it will be due to the quiet influence of the President. If so, it will be one of "his acts" that we will cordially commend, and for which he will be entitled to the thanks of the people, white and black, not of the South only, but of the entire country."

The Sinking Fund of the City of Raleigh.

We publish, in our local columns, a communication from Hon. KEMP P. BATTLE, the Commissioner of the Sinking Fund of the City of Raleigh, which will be read with interest by our citizens, as Mr. BATTLE throws some light upon the financial condition of the city. Mr. B. makes a suggestion as to the manner in which the city can get out of its financial troubles which is well worthy of attention, closing with this language:

"Until this be done there will always be confusion in the city finances and heart-burnings among its creditors."

We agree with Mr. BATTLE that some steps should be taken to place the city financially upon a sound basis, and to this end we think a full statement of the financial condition of the city, its embarrassments and the troubles experienced by its officials, should be made at once. It is due to the people of Raleigh, as well as to the officials, that this statement

should be made. It will be observed from Mr. BAT-TLE's communication that there is no provision made for the payment of the semi-annual interest upon any of the bonds of the city, other than those known as the "Market House Bonds."

uary, 1874.

WE referred a few days since to the view held out by a Washington correspondent of the New York Herald, that a Republican member of the House of Representatives will at an early day submit to that body a proposition for the relief of the Southern States from their present financial embarrassments. Here is what the

correspondent says: "A rumor is affoat here that before the lapse of many days a Republican member of the House will submit to that body a somewhat bold and startling proposition for the relief of the Southern States from their present disheartening financial embarrassments. This proposition, it is said, will be to advance to the Southern States several hundred millions of cash, or its equivalent, and partly in consideration of the heavy losses suffered by the Southern States in the loss of their slave property. Of course there is no hope of the success of any such scheme this side of the Presidential election of 1876; but suppose you have an ambitous Republican or two intent upon a new departure for 1876, you will perceive that, in gaining the good-will of the South, through the proposition suggested, the Republicans leading off in this movement will secure some capital to build upon. It seems to be understood here that a powerful bolt from the administration party is bound to be made for the campaign of 1876, and so if some leading Republicans during this session of Congress shall lead off in some movement for the Southern vote not set down in the administration programme you need not be surprised."

The Chief Justiceship. Our telegrams of Friday night, brought the intelligence that Hon.

CALEB CUSHING, the recently appointed successor of Sickles at Madrid, has been nominated by the President to the Chief Justiceship. We suppose the confirmation of "this nomination is beyond doubt. We are rejoiced that the mantle of the lamented Chase will not fall upon the shoulders of a third-rate lawyer President to have his way in the matter.

THE DRY GOODS IMPORTATION at New York during 1873 is stated by the Journal of Commerce, which devotes close attention to this matter, at \$114,167,465. This is nearly \$23,-000,000 less than the importation of 1872, and eighteen millions less than 4871, but it exceeds the importation of any previous year excepting 1866, when one hundred and twenty-six millions worth of dry goods were landed at that port. These values represent only the foreign gold cost of the goods, the freight and duty not being included. The dry goods importation represents about onethird of the total -imports at New crisis. This action will keep the York, which may therefore be set down for 18 0 at the large aggregate of about three hundred and forty-two millions. The Journal of Commerce, in commenting upon the statement. says that from present appearances the receipts for 1874 will not be as heavy as those for 1873, and that market will not absorb the same quantity of goods unless "a further inflation of the currency shall make this a favorite stumping ground for foreign fabricants.

BEN FRANKLIN ON OFFICAL SAL-ARIES,—Ben Franklin had, in his time, very clear ideas on the salary question. He was the author of the primitive constitution of Pennsylvania, while in a condition of transition from colonial to confederate government. The thirty-sixth article was as follows: "As every free man, to preserve his independence (if he has not a sufficient estate) ought to have some profession, calling, trade or farm, whereby he may honestly subsist, there can be no necessity for, nor use in establishing offices of profit, the usual effects of which are dependence and servility unbecoming freemen in the possess sors and expectants, faction, conten-THE Richmond (Va.) The Circuit Court of Washington City was engaged on Monday with the case of Mary Morris vs. the Washington City, Virginia Midland and Great Southern (Orange and Alexandria) Road. The plaintiff sues the company, alleging that on the 30th of January last she purchased a ticket for Fairfax station, but that the cars did not stop there, but ran along distance past, from whence she was obliged to walk back to the station in the snow. The jury returned a verdict of \$800 for the plaintiff.

The Railway Monitor, presumed to be good authority, gives the total railway mileage in the United States as 71,564 miles with second track and sidings of 15,512 miles—making a total of single track of 75,076 miles. The total capital stock is set down at \$2,072,251,954, or about \$29,956 per mile; total floating and funded debt, \$4,999,741,597, or \$27,957 per mile; total cost of railroads and equipments

\$3,728,416,958, or \$52,099 per mile. It has been revealed that three million political documents that were sent out from Washington to influence the election in favor of Grant, were paid for out of the United States Treasury. It is further stated, and it is the most serious part of the business, that the documents were circulated in the mails illegally, and that the so-called franks on them were forgeries.

Gentlemen: To the mary of you with whom I am personally acquainted. I would say, that of good results from GUANAHANI GUANO, I have not the shadow of a doubt. Containing, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its ingredients must be all soluble in the soil. Its nitrogen, from nitric acid, is the most available form know at a chemistry; the other part, from undecomposed animal matter, is preferable to the vo atile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

Baltimore, December 1st, 1873.

MAJ. N. M. TANNOR, President Guanahani Guano Company, Petersburg, Va.:

Dear Sir: I have drawn samples of the Guano, as it has arrived in eargo lots, and find it extedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 to 19 per cent. This is combined with Lime, and is of animal origin, and readily assimilable by plants. It contains potential ammonia and nitric acid, having a combined Nitrogeo value equal to from 2 to 3 per cent. of ammonia, with the alkalies Potash and Soda, and valuable proportions of Sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tillage, must, in my opinion, give as good results as any guano offered to the farmer.

Being of animal origin, the organite matter has undergone partial decomposition, and it necessarily contains a valuable amount of Humus, which makes its fertilizing power much greater than fertilizers which are compounded largely of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little or no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisure and brought down by the rains, as the guano you are now placing upon the market. All of the components of this Guano are very soluble in the soil, and possess such physical properties as to render it at all times and under all circumstances as in mediately available plant food.

The late samples you sent me for analysis, from the deposit which were inference of the components of the late samples you sent me for analysis, from the deposit which were inference of the components of the late samples you sent me for analysis, from the deposit which were inference of the components of the late samples you sent me for analysis.

available plant food.

The late samples you sent me for analysis, from the deposit which you inform me you intend to ship from, show a decrease in the phosphatic value, but a large increase in its nitreges compounds. I think, however, from previous observations of carçoes, that you may reasonably expect, that cargoes taken from where these samples were drawn, will materially improved in the saline compounds, (phosphates alkalies and magnesia.

UNIVERSITY OF PENNSYLVANIA, West Philadelphia, 19th, 1873. Maj. N. M. Taannor, Petersburg, Va.,

DEAR SIR: In compliance with your request. I have analyzed sample of "Guanahani Guano," and have made additional exam nation of an average sample from a lot of 300 tons, the result of which, I beg to embrace in the following. The Guano is a brownish powder, with lumps of combinations of time with Carbovic, Phosphoric and Nitric acids. It contains a considerable quantity of water about 2. Poer cent., and when dried is a paler brown powder. The Guano is evicently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the result of the decay of bats, mice, &c. The quantity of organic matter, which is still present, is about 12 per cent, and this yields about 2½ per cent, of animonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent, wa found, all the nitrogen present would be equivalent to about 3½ per cent, of ammonia. The phosphoric acid in the Guano, about 12½ per cent, equal to 27 3 per cent. of bone pho phate. Considerable quantity of the phosphoric acid, however, is present, as so-called neutral phosphate of lime, which, being slightly solt ble in water, renders the Guan as quite in its action, as a corresponding quantity of superphosphate would do. The small per centage of potash, which was found in the analysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can exist that it is a valuable manure.

other fertilizers, says, so far, the Guanahani looks better than any of the others. All
parties say, so far, they can see no difference in their grain wherever it is up sufficient
to judge. By the Spring, I can give you a more satisfactory report. Hoping to have the
pleasure of a visit from you, soon,
I am, truly yours.

I am, truly yours, W. H. B. DORSEY P. S.-I have commenced making a stir for the Spring trade.

San Marino, Dinwiddie Co., Va., November 15th, 1873. W. R. GRIFFITH, Esq.,
Dear Sir: Yours of the 12th inst., was received on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Guaco, from Messis. Rowlett & Tannor, 1st of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs, per acre. The wheat was seeded from the 10th to the 17th of October i was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with ** * * Phosphate. The two acre strip was in tobacco, heavily manured with stable manure and * * * * Tobacco Fertilizer. I also added a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sown upon this three fifths srip. The season has been favorable, and the young wheat is looking very well; and that upon the narrow strip of poor land, equally as good as upon the heavily manured tobacco land. I am satisfied that the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assertion just yet, bu will carefully note the result and let you hear from me again.

Yours respectfully.

Yours respectfully. THOS. F. RIVES

Prince George County, Va., December 16th, 1873.

Messrs, Rowlett & Tannor,
Dear Sirs: In reply to your inquiries in regard to the Guanahani Guano, which I purchased last summer, I can only say that I applied it on my wheat crop, sowing it breadcast and plowed it in with the wheat. So far, I am vary much pleased with the Guano, where I used it, the wheat looks better than any I have seen, and my neighbors who have seen it, consider it so. I applied it the first of October, and it shows very plainly over the wheat where there was nothing used.

Very respectfully,

JOHN J. MITCHELL. Kingston, Dinwiddie Co., Va., November 26th, 1873.

[Note.-Mr. Mitchell has since ordered 10 tons for his Spring crops

Messrs. Bishop & Branch,

Millstone Landing, Md., December 1st, 1873. Mr. E. A. DUNLAP,
Dear Sir: I am just in receipt of your letter, but regret that I did not receive it sooner.
I used your Guano. side by side with * * * * * 's Ammoniated Super-Phosphate, and
could perceive no difference, only in growth of the straw. The straw from * * * * *
rather the largest. The grass from it was equally as good, and I do not hesitate in rec-

ommending it to farmers as a reliable fe: tilizer. Very respectfully, Dinwiddie County, Va., November 21st, 1873. Messrs. McIlwaine & Co., Petersburg, Va., Gentlemen: I used the Guanaham Guano, purchased of you, on wheat at the rate of 300 lbs. per acre, on corn land. The wheat is looking well. I think it will prove a good fertilizer. Respectfully,

Sussex County, Va., December 12th, 1873.

Sussex County, Va., December 12th, 1873.

Dear Sirs: I used on my wheat, sowed about the 1st of October, a half ton of Guanahani Guano, and so far I am very much pleased with its action. Where I used the Guanahani the wheat is look ng remarkably well—a great deal better than the wheat sown on a pea fallow. Very respectfully, J. N. WINFIELD.

Messrs. Bishop & Branch.
Sirs: You ask me my opinion of the Guanshani Guano I puechased of you last fall.
I used the guano on my wheat, but owing to the unfavorable fall for the growth of wheat, it would be impossible for any manure to show its strength fully. Powever, I think the guan oa good fertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money. Respectfully, A. G. JORDAN.

Petersburg, Va., December 16th, 1873.

Wm. R. Griffiih, General Agent of the Guanahani Guano Company,

Dear Sir: In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.

Yours truly,

SAMUEL H. JONES, Prince George County, Va.

Broad Run Station, Fauquier County, Va., December 4th, 1873. Dear Sir: I left one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn care ully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a haif gallon; from the row without guano I got a half bushel and not quite a quart; making fully double where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain. I think it an excellent Spring fertilizer. The land I tried it on was quite thin.

A. D SMITH. Poplar Mount, Greensville County, Va., December 17th, 1873. Mes rs. ROWLETT & TANN Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I used the same quantity (200 pounds on winter oats. The wheat was not sown until about the 20th of October, but has already a healthy, vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the sup-r-phosphates.

The winter oats we e sown the last of September. In the application to this crop, i have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former days, when, for a moderate outlay of money, the farmer purchased the pure Chincha Island, (unadulterated) Peruvian Guano.

I wish to try some of this Guano next year on cotton and tobacco.

I am, very truly yours.

Yours, &c.,

I am, very truly yours, GEORGE W. FIELI. The Company recommend an application of from 200 to 250 pounds per acre, but not over the larger amount.

As it will be impossible to bring but few theusand tons to this country in time for the spring irade, orders must be sent at an early day to secure it.

For further information apply at the office of the GUANAHANI GUANO COMPANY, PETERSBURG, VIRGINIA.

In returning our thanks to our pa-trons, we say to them and the public, that our late purchases were made at a very great decline, and that we are now selling considerations as to instify us in great decline, and that we are now selling our stock at such prices as to justify us in saying that such bargains have not been offered since the war.

We have a good supply of Burt's, Ziegler's and Bay State hand-made shoes and gaiters for Ladies, Misses and Children. Also, for gentlemen, Canfield's, Porter, I'ay & Co's., and Burt's single and double soled calf gaiters and boots, which we offer at very low prices. All wishing to purchase will not regret calling and examining our stock and prices. We sell for CASH and have fixed our prices on a cash basis. Therefore those buying of us do not help bear any risks for bad and slow debts. Very libetal prices to merchants buying in this market.

We have just received some very late styles of hats, including Ops ra, Snowflake. Chesterfield and Clementine. NEW YORK, Jan. 10.-Hon. Ed ward Salmon, Ex-Governor of Wisconsin, appeared in the Supreme Court yesterday, in behalf of Baron Von Rhoden, of Berlin, and made an argument on a motion preliminary to asking the Court to set aside a decree of divorce obtained by his wife, popularly known as Madame Pauline Lucca. The case is made complicated owing to the fact that Madame Lucca was married to one Von Walhoffen, soon after she obtained a decree of divorce from Baron Von Rhoden. The Boron says he and his wife lived happily together until Von Walhoffen was wounded in the

Franco-Prussian war. The officers of the Spanish war steamer Arapilles have been entertained at a dinner at Delmonico's by the Spanish residents of this city. It is said that the action of Admiral Polo was denounced in the postprandial speeches.
